# Nidek RS-330 Retina Scan Duo

### Setup

Make sure both computers (Navis and Optomize) are on the same network.

#### Optomize

Create a shared folder on the Optomize PC for folder capture (e.g. shared as Navis).

Add a Folder Capture device pointing to the location of the shared folder.

Select the option to clear the folder on start.

Capture images from a computer folder						
Default						
Clear folder on start 🗹						
Path E:\Navis						
Default Get Set Cancel OK						

#### Navis

Go to Setup/Settings

Select the Export tab.

Clear Execute				

Click the New button and fill in the "Function Name" as Optomize and "Module Name" as Export JPEG file(s).

Click the detail button and enter the shared folder location into the Folder box and set the quality to 100.

## Operation

#### Optomize

Start a new photography session for the correct patient.

#### Navis

Highlight all the pictures you want to export. Click Export and select the Optomize option. These images will be picked up automatically by Optomize and will be deleted from the Navis shared export folder.

When the images have been exported you will see the following:
